

The Rare Earth™ Chemical Element Card Game

Which cards come from which pack?

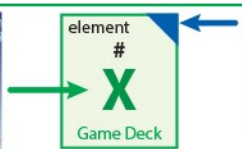

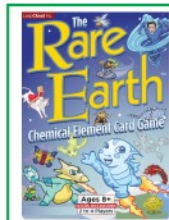

Keep this handy chart to help you identify which cards belong to which deck when you want to restore your periodic table back into the original boxes.

Full Game
(108 cards)

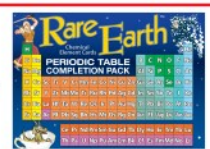

Home Game
(54 cards)
*If you purchased the Rare Earth HOME GAME (sold in retail stores), please visit RareEarthGame.com for information on how to acquire additional cards.

In the chart above, the green element rectangles represent game cards that are found in the **Full Rare Earth Game**. The blue triangle represents the *subset* of game cards also found in the **Home Game**.

Periodic Table Completion Pack
(50 cards)

In the chart above, the red and yellow element rectangles represent element cards that are only found in the **Periodic Table Completion Pack**.
